Tennis is a sport that can be played for a lifetime. To play tennis all you need is a racquet, balls, one other person and a court! Because Richmond is consistently ranked (by United States Tennis Association) as one of the nation's top ten tennis cities, we have an extraordinary menu of inexpensive tennis options for all ages.

Tennis is so widespread in Richmond that reasonably priced instruction is offered by neighborhood recreation clubs, city/county recreation programs and even by many private clubs to non-members. In addition, Richmond offers youth team options (even for beginners!) for players from age 5 all the way into late, late adulthood.

HOW DO WE START PLAYING TENNIS?

Hmmm...tennis sounds tempting, BUT what do I need to get my family started?

Using the reference information listed in this article, choose what fits you and your family best.

First, choose a convenient public tennis court, and then select an affordable tennis instruction facility (no memberships needed), and lastly equipment.

Richmond has a HUGE population of Novice Tennis Players! In Richmond, you are never too old or too young to begin playing tennis! If you are a rusty-returning tennis player, perhaps even select a team option that fits your needs! There is nothing like match play to knock the rust off!

The great thing about tennis is that there truly is a place for everyone regardless of skill level or age.

TENNIS COURTS- Locate a public tennis court near your family. Most local public high schools and some middle schools have public tennis courts. In addition, many public parks have tennis courts (Byrd Park, Huguenot Park, Belmont Park etc.)

YOUTH TENNIS TEAMS:

How do you know if a youth player is ready for “Team Tennis”? This is a very common question, but the answer is very simple. If a player can hit the ball back and forth “rally” three or more times, they are ready for team tennis! The standards are not supremely high because, for both the children and adult teams, players are separated by skill level. So if you are a beginner, you will play on a beginner team and against beginner players. If you are advanced, you will play against advanced players.

USTA Jr. Team Tennis (JTT) brings kids together in teams to play singles, doubles and mixed doubles against other teams. It promotes social skills and important values by fostering a spirit of cooperation and unity, as well as individual self-growth. Richmond has the second largest JTT league in Virginia. JTT is the largest youth tennis league in Richmond.

EQUIPMENT-

To play tennis all you need is a racquet, balls, one other person and a court. For an adult, a racquet can be borrowed or purchased at any used equipment store. For a child, you should purchase equipment (or borrow) according to their size. A child's racquet is

the correct size for them if it can barely touch the floor when being held (held like it's going to be used to hit a ball). If a child is under ten, they should not be using an adult ball. (red- under 9. orange- under 11) Most "super center" stores and tennis clubs carry inexpensive children's racquets and colored balls for under \$25.
